

Air Liquide is already part of your daily life!

- To carbonate drinks (to make them sparkle):
Carbon dioxide, CO₂
- To preserve our environment through the development of clean energies for transportation:
Hydrogen, H₂
- To protect lives in hospitals, by helping patients breathe and relieving pain:
Oxygen, O₂
- In smartphones by producing better nanoelectronics:
Nitrogen, N₂

Your future at Air Liquide

Air Liquide Nordics is part of the Air Liquide Group

The world leader in gases, technologies and services for Industry and Health, Air Liquide is present in 80 countries with approximately 65,000 employees and serves more than 3 million customers and patients.

Air Liquide Nordics is part of the Air Liquide Group. In Denmark, Finland, Norway and Sweden we form a joint Nordic organisation. This means that we are flexible and have the resources to offer our customers a very high level of service, even across country borders.

Our Nordic success is built on the competences and performance of our nearly 500 employees. We offer good development opportunities, e.g. through our career programs.

Our culture encourages innovation and independence and we offer a safe and diverse working environment with a good work-life balance.

You are welcome to visit Air Liquide's Nordic career website pages where you can find available jobs or make an unsolicited application.
